**Subject:** Update

Jason just sent me a large zip file with the data and figures. It looks like things worked out pretty well, but I have asked him to include a read\_me file to explain each file. I was having trouble figuring out some of the files. Once I get that I need to ftp the information to you. It is very large (63 Meg). I would suggest that after we get you the data, we should schedule a conference call to explain each file and figure. I have included a couple of the figures below that were smaller in size to show you what they have provided.

Thanks.
